

MOHANA KRISHNA V B

9597020160 | ybmohanakrishna@gmail.com | LinkedIn: [Mohana Krishna V B](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst and AI & Data Science undergraduate with hands-on experience in Python, SQL, and Power BI. Proficient in end-to-end data pipelines — from data wrangling and exploratory data analysis (EDA) to building and deploying supervised machine learning models (classification, regression). Skilled in developing interactive BI dashboards, applying statistical analysis to extract actionable insights, and communicating findings to both technical and non-technical stakeholders. Demonstrated ability to deliver data-driven solutions through internships, academic projects, and freelance engagements.

SKILLS

Data Analysis & Visualization	Machine Learning & Modeling	Statistical Analysis
Exploratory Data Analysis (EDA)	Predictive Analytics	Feature Engineering
Data Cleaning & Preprocessing	Business Intelligence (BI)	Dashboard Development
SQL & Database Management	Python Programming	Model Evaluation & Tuning
Supervised Learning	Regression & Classification	Prompt Engineering

TECHNICAL SKILLS

Languages	Python, SQL, JavaScript Power BI, Pandas, NumPy, Matplotlib, Seaborn, Microsoft
Data & Visualization	Excel Scikit-learn, Supervised Learning, Classification, Regression, Feature
ML / AI	Engineering, Model Evaluation & Tuning, Predictive Modeling.
Web Development	HTML, CSS, JavaScript, Flask
Databases	MySQL, MongoDB
Other	Statistical Analysis, Data Wrangling, Business Intelligence, Prompt Engineering, Microsoft Office.

PROFESSIONAL EXPERIENCE

Data Science Intern Arjun Vision Tech Solutions	2024
- Performed end-to-end data preprocessing, cleaning, and feature engineering on real-world datasets using Python (Pandas, NumPy). - Built and evaluated supervised machine learning models (classification, regression) using Scikit-learn, improving prediction accuracy through hyperparameter tuning. - Designed interactive Power BI dashboards to visualize KPIs, enabling faster data-driven decision-making for stakeholders. - Conducted exploratory data analysis (EDA) to identify trends, correlations, and outliers across large datasets.	
AI & Machine Learning Intern NSIC	2024
- Implemented and evaluated ML models for classification and prediction tasks using Python and Scikit-learn. - Applied feature selection, data wrangling, and model optimization techniques to improve model performance metrics (accuracy, F1-score, AUC). - Gained practical exposure to the full ML pipeline: data ingestion, preprocessing, model training, validation, and deployment readiness.	

EDUCATION

B.Tech – Artificial Intelligence & Data Science

2022 – 2026

Tagore Engineering College, Tamil Nadu.

Higher Secondary Certificate (HSC)

2020 – 2022

Vivekananda Vidyalaya Matriculation Higher Secondary School, Tamil Nadu.

PROJECTS

Smart Priority-Aware Emergency Response System with ETA-Optimized Resource Dispatch

- Developed an intelligent emergency response web application using Python, Flask, MySQL, HTML, CSS, and JavaScript.
- Implemented priority-based emergency classification and ETA-optimized resource dispatch for ambulance and fire-rescue coordination.
- Built real-time dashboards for incident monitoring, dispatch tracking, and multi-service emergency management.
- Designed database-driven resource allocation and automated decision-making to improve emergency response efficiency.

Attendance SMS Alert System

- Designed and developed an automated attendance monitoring system that triggers real-time SMS alerts to parents for absentee students.
- Built a robust backend in Python with MySQL integration for student record management, attendance tracking, and alert scheduling.
- Reduced manual tracking effort by ~80%, improving operational efficiency and parent-school communication.
- Applied data pipeline design principles to automate record retrieval, filtering, and notification dispatch.

SV Engineers – Business Website

- Designed and deployed a fully responsive business website with optimized UI/UX to improve user engagement and conversion.
- Ensured cross-device compatibility across mobile, tablet, and desktop using responsive design best practices.
- Achieved faster load times through asset optimization and successfully hosted on Netlify with CI/CD pipeline.

CERTIFICATIONS

- Completed 20+ certifications in Data Science, Machine Learning, Predictive Analytics, and Business Intelligence.
- Earned multiple LinkedIn skill badges in data analysis, SQL, Python, and data visualization.
- Participated in the International E-Conference organized by A2Z Research & Analytics Pvt. Ltd. (2024).
